

Brett Martin's Approved Partners

At Brett Martin, we work closely with a number of printing, cutting and thermoforming machine manufacturers to test and showcase the capabilities of our semi-finished product portfolio.

Our Approved Partner programme gives you and your customers the confidence that Brett Martin's products can be successfully processed on a wide range of the most common equipment used in our industry. In addition, by collaborating with the world's top manufacturers we ensure our range is continuously evolving and performing to the highest standards and is kept up to date with the latest technological advances.

This table contains information about the equipment on which Brett Martin's products have been tested. For more details, please go to: brettmartin.com/plastic-sheets/approved-partners
